SKILLS

Programming: Java, JavaScript
Frontend: React, HTML, CSS, Tailwind
Backend: Spring Boot, REST APIs
Database: MySQL
Core: OOPS, DBMS, CN

PROJECTS

HR Offer Letter Generator

Oct 2025 – Nov 2025

Python, HTML, CSV

- Automated company offer letter generation using Python and HTML templates.
- Processed candidate details from CSV files to dynamically generate personalized offer letters.
- Designed professional, branded letters by integrating logos and signature assets.

EduTech Website

Aug 2025 – Sept 2025

HTML5, TailwindCSS, JavaScript, AOS, Google Maps

- Built a responsive multi-page educational website using HTML5, TailwindCSS, and JavaScript, ensuring seamless navigation across devices.
- Implemented interactive UI components including modals and scroll animations using JavaScript and AOS (Animate On Scroll) library.
- Integrated Google Maps to improve user engagement on the contact page and enhance usability.

INTERNSHIP

Technology and Innovation Intern

Sept 2025 – Oct 2025

Barleria Consulting Services Pvt. Ltd.

- Built a CRUD REST API using Node.js, Express, and PostgreSQL for managing application data.
- Implemented JWT-based user authentication with secure login, signup, and password hashing.
- Integrated backend APIs with a React frontend and tested all endpoints using Postman.

ACHIEVEMENTS

Actively participated in 2 hackathons, collaborating in a team to design and develop software solutions within 24-hour time constraints.
